

Create a new class called GradeConversion.

Create a program that will take an integer input from a user and convert that number grade to a letter grade and then tell the user

Use the following conversions

90 and above is an A

80 to 89 is a B

70 to 79 is a C

60 to 69 is a D

0 to 59 is an F

Use if, else if and else in your program.

Assumptions:

1. The user will only input integers
